

Session Program

March 27, 2026

ENERDAY 2026 - 20th International Conference on Energy Economics and Technology

Flexibility Modelling

Technische Universität Dresden, Hörsaalzentrum
Bergstraße 64, 01069 Dresden

Fri, March 27

4:50 PM

Flexibility Modelling

Session | Location: HSZ, HSZ/4-403 - HSZ/403

4:50 - 5:10 PM

Evaluation of the impact of robustness regarding demand side uncertainty on the estimation of load flexibility bands for home energy systems

Speaker

Tizian Schug

5:10 - 5:30 PM

Bridging Economics and Physics in Energy System Analysis: Effects of Flexibility Representation on Model Outcomes

Speaker

Bela Wiegel

5:50 PM
